SUMMARY

DevOps Engineer and Software Developer with hands-on experience in **AWS Cloud** and application deployment. Skilled in **Kubernetes, Docker, and Terraform**, with practical exposure to **EKS, ECS, EC2, S3, and VPC**. Experienced in building **Python (Django)-based applications** and deploying them in **containerized environments**. Focused on **automation, cloud-native technologies, and scalable infrastructure**.

SKILLS

Programming: Python, Django, Flask
Web & DB: HTML, CSS, MySQL, SQLite
Cloud (AWS): EC2, S3, VPC, RDS, CloudFront, ECS, EKS, IAM
DevOps Tools: Docker, Kubernetes, Terraform, Git, GitHub
Concepts: OOP, Data Structures, Networking, CI/CD Basics

EDUCATION

B.E. Computer Engineering - Mumbai University (G.V. Acharya Institute)	CGPA: 8.5/10
Diploma in Computer Engineering - G.V. Acharya Polytechnic	75%

PROJECTS

- **Containerized Application — EC2, RDS, Docker**
 - Deployed application on EC2 using Docker for consistent deployment
 - Integrated backend with RDS database and configured Security Groups
 - Managed container lifecycle, dependencies, and environment setup
 - Improved scalability and deployment efficiency using containerization
- **Kubernetes Application Deployment — AWS EKS, Docker, Kubernetes, Python (Django)**
 - Containerized a Django web application using Docker and deployed it on AWS EKS
 - Created and managed Kubernetes manifests (Deployment, Service) for application orchestration
 - Exposed application using LoadBalancer service for external access
 - Used kubectl to manage cluster resources, monitor pods, and troubleshoot deployments
- **VPC Architecture Design — VPC, EC2**
 - Designed custom VPC with public and private subnets
 - Configured Route Tables, Internet Gateway, and NAT Gateway
 - Implemented Security Groups and NACL for network security
 - Deployed EC2 instances in isolated architecture for secure communication
- **Movie Finder Web App — Python, Flask, REST API**
 - Built web application using Flask with REST API integration
 - Fetched real-time movie data using OMDb API
 - Handled JSON parsing, API requests, and error handling
 - Designed responsive UI and optimized API performance

CERTIFICATIONS

- DevOps Fundamentals (Simplilearn SkillUp)
- Google Certificate (Coursera): Python, OOP, API
- Python Development Course (Quastech Institute)
- Generative AI Workshop, Data Science using Python, React Workshop
- AWS Academy Cloud Foundations
- IBM SkillBuild: Artificial Intelligence
